

Torino Process 2018-2020

Title of the event: Torino process 2018-2020 launch event in Ukraine

Venue: Radisson Blu Hotel, Bratskaya Street, 17-19, Kyiv

Date: 21st and 22nd March 2019

SUMMARY

The Torino Process is an evidence-informed analysis of Human Capital Development issues and Vocational Education and Training (VET) policies' responses in the ETF partner countries. The process, launched by the ETF for the first time in 2010, enters in its fifth round of implementation that will be completed in the period 2019-2020.

Ukraine participated in the Torino process since 2010. In 2018 2020 cycle, full ownership of the Torino process is with the national and regional key stakeholders. Human Capital Development, covering Education, Training, Skills and Life-Long Learning touches upon a number of policy domains. In this context in Ukraine the role of VET becomes very important, as it has impact on the implementation of high level objectives for growth and sustainable development. In 2019, the idea is to start from this high level of ownership to further improve the scope and use of the Torino Process in VET policy in Ukraine.

The objectives of this workshop are the following:

- To get familiar with the Torino Process 2018-20 objectives and strategic orientations;
- To present and familiarise with the Torino Process National Reporting Framework - NRF (framework of analysis) and clarify any questions on the NRF
- To present the ETF assessment as new part of this cycle
- To discuss and agree on policy added value of Torino Process in the country and in its regions
- To define/confirm the calendar of implementation for regional and country reporting
