

## Webinar of ETF Forum for quality assurance in VET: Peer visits as external evaluation tool

Date: 16 November 2020, 10.00 – 11.30 (Turin / Central European Time)

### Concept

The ETF Quality Assurance Forum is a transnational collaboration initiative between national institutions with VET quality assurance mandates in ETF's partner countries. The aim of the Forum is to support member countries to improve quality assurance in VET.

The Forum makes use of peer visits as one of its main working tools. A Peer visit is a form of external feedback from peers, when an external group of peer experts is invited to give feedback on a certain measure or process selected by the host institution. In the context of the ETF Quality Assurance Forum, peer visits are used as transnational peer reviews of national policies, where peers represent VET quality assurance authorities in different countries. However, peer visits can also be used in a wider context, between peer institutions (for example, schools) of the same country. Both practices will be presented at the webinar.

ETF developed a **Peer visit guidance and training manual** ([link to Manual on ETF Open Space](#)) to provide guidance through the 4 phases of the peer visit: preparation, implementation, delivery of peer feedback and follow-up.

### Agenda

10:00-10.10	Welcome & insight into the ETF Quality Assurance Forum <i>Eva Jansova, ETF, Specialist in Human Capital Development</i>
