## International webinar

### Current issues of distance and digital learning in Central Asia and the European Union

Form of event: webinar ZOOM

DECEMBER 4, 2020, 15: 00, NUR-SULTAN TIME

---

"Digitalization has been considered as one of the key directions of education development for several years."Digital educational environment" — creating a modern and secure digital educational environment that ensures high quality and accessibility of education of all types and levels."

The success of educational organizations and individual teachers also depends on how quickly they were able to adapt to new challenges and adapt to the situation of uncertainty. In this regard, teachers have demonstrated their readiness for the total transition of colleges to distance learning within such a short period of time and have found new ways to work with students. In other words, in a situation of force majeure, the specialists of the education system were able to quickly adjust to implement the tasks facing the system.

The topic of the webinar is related to the opportunities and prospects for using innovative technologies in the context of distance learning to manage the quality of education in the IT direction and the direction of "maintenance and repair of motor transport".

### **The purpose of the webinar:**

- exchange of experience in distance learning with the countries of Central Asia and the European Union.

**The webinar (December 4, 2020)** will be held in an interactive format (session rooms). The theme of the webinar: "Introduction of innovative technologies in the context of distance learning".

The audience will be divided into two session rooms for "IT direction" and "maintenance and repair of motor transport". In the session rooms, participants will have the opportunity to exchange experience in implementing innovative technologies, discuss problems, and study specific methods of work with colleagues from Central Asia and the European Union.

The working language of the seminar will be Russian, simultaneous translation into English is provided only for plenary sessions.

## WEBINAR 2, December 4, 2020

*The time is indicated by the time of Nur-Sultan UTC / GMT +5 hours*

**Topic: Introduction of innovative technologies in the context of distance learning.**
