

TITLE OF THE PROCEDURE:

Developing and sharing excellence on digitalisation of teaching and learning

Authorising department: Project Management Tools and Dissemination Unit

Deadline for expression of interest: 12 August 2021

Planned launch date: August 2021

Budget: 60,000€

Scope of the procedure:

In this context, the present procurement procedure aims to conclude a contract with a service provider with aiming at supporting the development of a ENE partnership in the field of digitalisation, through the following activities:

1. Design and implement a programme of 5 webinars, in partnership with ETF, in line with the objectives and overall framework presented in the TORs
2. Support ETF in identification of CoVEs which will be part of the core group on the basis of their expression of interests, and support CoVEs in the design of development projects
3. Support the core group of CoVEs in the design and implementation of development projects
4. Identify and propose action recommendations and further strategies for policy learning to support CoVES contributing to introduction of digitalisation in education, in concrete, focusing on policy options for ETF Partner Countries.

The content of this partnership will cover three main areas:

- Introduction of digitalisation in pedagogical services (blended learning, distance online learning, teachers digital competencies, students' digital competencies, introduction of new competences like coding, robotics etc..)
- introduction of digitalisation in non-pedagogical services (career guidance, students-school-company cooperation, management of administrative processes etc..)
- Transversal areas affected by the introduction of digitalisation in education (CoVEs management and institutional development; quality assurance equity/social inclusion, work-based learning etc..).

Type of contract: Fixed contract service in phases

Selection criteria - technical and professional capacity requested to the economic operator:

Experience in implementing similar services to those described in the tender specifications related to digitalisation of teaching and learning in the previous three years.
