EU Covid-19 Solidarity Programme

People in Need Armenia

Women’s Rights House NGO

“Fight against COVID-19 through the promotion of women entrepreneurship”
The idea of the project

As many women and girls, and also their family members lost their jobs and other incomes as a result of COVID-19, the project supports women’s economic empowerment through promoting their entrepreneurship and ensure their financially independence.
Beneficiary selection process

The target group of this project were women and girls from the Shirak region, who have lost their jobs because of COVID-19, or have no other income, but have certain skills such as handicrafts, sewing, embroidery, etc. or have business ideas.

To ensure greater outreach and to inform those who do not have access to the Internet, announcements were distributed through various NGOs and active groups, as well as posted on social networks and on the organization's FB page.
For those 30 women that applied individually or in groups 8 capacity building courses were conducted by experienced business professionals.

Women learned some basics of business management, marketing, market analysis, etc. The training helped to shape mentality for the start-up entrepreneurship and understand what is missing for staring the own business.

Only women who had completed all capacity building courses were eligible for the sub-grant competition.
RESULT

Out of 30 participants, who participated in the courses and presented prospective business projects, 13 were chosen and received up to 700,000 AMD (about 1400USD) to start their own business.

The business professionals coach the start ups during the entire life of the project.
The chosen business ideas

Susanna crafted products that will encourage those around to be as ecological as possible, and appreciate our culture and history. Such products were of high demand in Armenia as well as among wide-spread Armenian diaspora in different countries.

Some of the products, like cloth bags, meet the requirements of upcoming banning of plastic bags usage.

Susanna paints pictures by her own and created the ready-made products that has already been sold in Armenia and in other countries.
