

AGENDA

KICK OFF MEETING GRETA INITIATIVE – GREENING RESPONSES TO EXCELLENCE THROUGH THEMATIC ACTIONS

ONLINE 7 DECEMBER 2021

INTRODUCTION

Vocational and education training (VET) has an important role in greening of skills in different areas and sectors. The green dimension ranges from very technical and job-specific skills to responsible use of resources relevant across occupations and sectors. Greening the curriculum and training means adapting training disciplines to sustainability concepts and practices in the curriculum.

The expectations on Centres of Vocational Excellence (CoVEs) are high in providing greening responses and in becoming more sustainable institutions, where school management, career guidance, curricula development, teachers and trainer's professional update and work based learning are key thematic actions to take into consideration. CoVEs have also to prove strong capacities for cooperating effectively with other public institutions, as well as with the private sector for boosting green development.

Through peer learning, the GRETA initiative provides CoVEs support and inspiration on how improve their greening responses for the future. The European Training Foundation (ETF) cooperates with the Danish Technological Institute (DTI) on the implementation of GRETA.

GRETA will be implemented until next year, December 2022.

In total 17 CoVEs participate from 8 different countries. We have centers participating from Armenia (1), Georgia (1), Latvia (1), Serbia (1), Slovenia (1), Spain (2), Turkey (3) and Ukraine (7).

The purpose of the Kick off meeting is to:

- Present GRETA team and update of GRETA work packages.
- Establish a peer learning community between participating CoVEs.
- Prepare peer learning reviews among CoVEs.
