

AGENDA

ENE ENTREPRENEURIAL COVES

WEBINAR 3: ACHIEVING *SUSTAINABLE DEVELOPMENT GOALS* *AND WOMEN ENTREPRENEURSHIP*

ONLINE ZOOM

20 APRIL, 2022, 10.00 - 12.00 CEST

SUMMARY

The Partnership of **Entrepreneurial Centres of Vocational Excellence** (Entrepreneurial **CoVEs**) works on developing Entrepreneurship as a key competence in a life-long learning perspective. The project promotes knowledge sharing, peer learning and collaboration of **CoVEs** with a view to help them improve their performances. Currently active CoVEs are from Georgia, Moldova, Morocco and Tunisia. More details on the Partnership are available at: [Entrepreneurial centres of vocational excellence | ETF \(europa.eu\)](https://www.etf.europa.eu/entrepreneurial-centres-of-vocational-excellence)

As first step the Partnership developed a **conceptual framework** and a **reflection tool**. The conceptual framework sets the theoretical frame of the concept of entrepreneurial CoVE around four dimensions: a) Organisational Practices; b) Teaching and Learning Processes; c) Products and Services; d) Ecosystem. Based on the conceptual framework, a reflection tool was developed to support CoVEs to reflect on their journey of becoming more entrepreneurial. The tool guides CoVE teams to critically reflect on their own practices, identify their strong areas, the areas they can improve, and plan their own development strategies. The reflection tool was completed by the participating CoVEs in consultation with CARDET Team. Based on the findings of the reflection exercise, four common areas for improvement emerged:

- a) Digitalisation, and Digital Strategy
- b) Sustainable Development Goals (SDGs) and women entrepreneurship
- c) Business incubators and Start-Ups
- d) Collaboration with international and European stakeholders

As a next step, four webinars are offered with the aim to present and share good practices to the members of the consortium (CoVEs) in each of the four topics above. In this third webinar the focus will be on how TVET centres can work to promote and achieve the Sustainable Development Goals (SDGs) and more particular women entrepreneurship, in their approaches and activities. The agenda is structured in a way where all the CoVEs will be participating interactively in the discussion. Another aim of the webinars is to function as a platform for collaboration and synergies among the participants.

An opportunity for new CoVEs to join the partnership is offered in this third webinar. In this respect an open session is available at the end of the webinar when the activities of the project will be presented and questions can be asked on how to join the Partnership.

For more info on the Entrepreneurial CoVEs Partnership please contact Mariavittoria Garlappi, Project Coordinator at ETF mvg@etf.europa.eu.

AGENDA

Chair: Charalambos Vrasidas, Director, CARDET

Chat Moderator: Andreas Georgiou, Head of Innovation Unit, CARDET

Time	Activity	Speaker/s and support
09:50-10:00	Getting connected - Participants to join Meeting Zoom Link: https://us02web.zoom.us/meeting/register/tZMsduyrrzgoGdFKXXZkP3rzXxSfGi_7yhLC Contact Person for Technical Issues: Agathaggelos Georgiou, CARDET, email: agathangelos.georgiou@innovade.eu	All Participants
