Tools & Content

Pedagogies

Summary

DIGI ENE is one of the sub-initiatives launched in the context of the ETF Network of Excellence. The focus will be digital teaching and learning practices. The overall objective of the sub-initiative is to show how digital teaching and learning can efficiently increase students' learning, presenting tools and methodologies, and supporting participating Centres of Excellence in integrating them in their working environment.

Objectives:

The webinar on **Digital Pedagogies** will:
- **present approaches to teaching for effective technology integration into education &**
- **open a platform for discussion and transnational learning among members of the network &**
- **enhance reflection on the role of technology inside the school environment.**
