

AGENDA

Torino Process 2022-2024: Towards Lifelong Learning

National dissemination and consultation meeting: Bosnia and Herzegovina

22 June 2023, 09:00 – 13:30 CET Novotel Bristol (Fra Filipa Lastrića, Sarajevo)

Bosnia and Herzegovina is an active participant in the Torino Process - a biannual assessment of vocational education and training conducted jointly by the European Training Foundation (ETF) and its partner countries since 2010. The current round of the Torino Process specifically centres on monitoring the performance of VET in providing opportunities for lifelong learning (Torino Process Level 1), and on reviewing policies and practices which may influence that performance (Torino Process Level 2).

This event will present and discuss the monitoring results for Bosnia and Herzegovina and, together with national and international stakeholders, will launch the Torino Process review of policies for lifelong learning in your country and discuss its scope.

The meeting has the following objectives:

1. Present the monitoring results for Bosnia and Herzegovina.
2. Discuss these results in view of planning the policy review.
3. Discuss and agree on the different aspects of work-based learning as a theme for the policy review, which was chosen at the Torino Process launch meeting in November 2022 in Sarajevo.
4. Identify stakeholders (institutions) for a reference group which will oversee the review process.

The working language of the meeting is English, with interpretation.

Draft agenda

Time	Session
09:00 – 09:30	Registration of participants and welcome coffee
