A woman with dark hair tied back, wearing a dark blue shirt with white polka dots, is smiling and shaking hands with a man whose back is to the camera. He is wearing a light blue shirt. In the background, other people are seated at a table, some clapping. The setting appears to be a bright, modern meeting room or office.

NQF implementation in Partner Countries

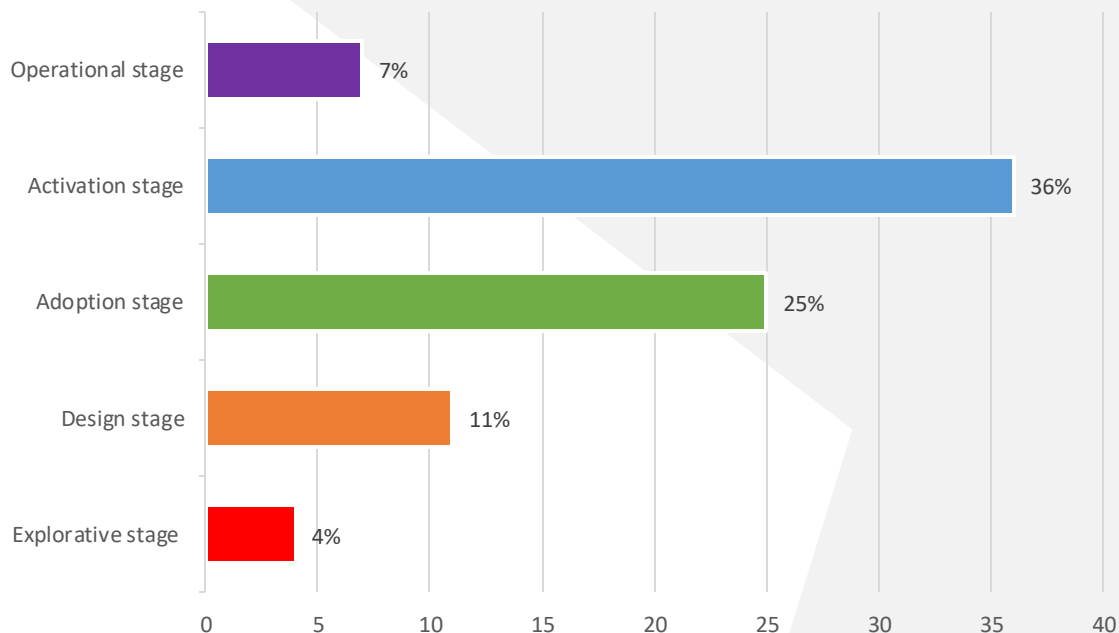

TOWARDS OPERATIONAL NQFs?

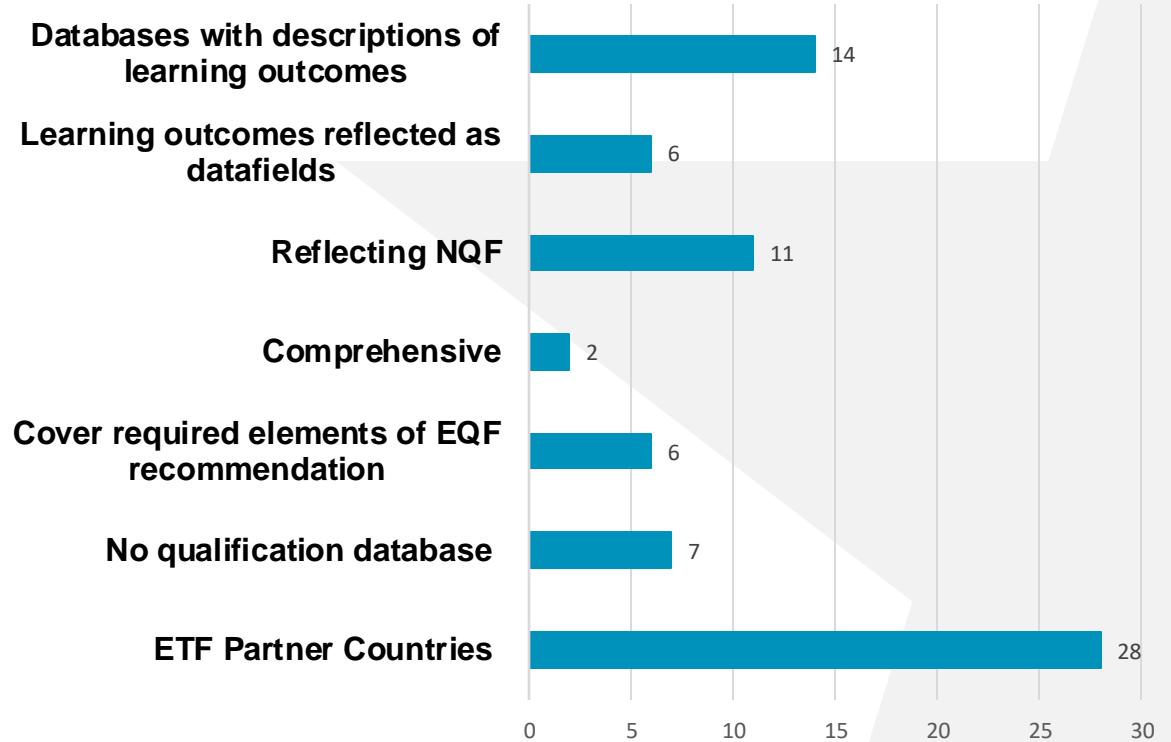

“Operational stage”:

- NQF adopted;
- qualifications are described in learning outcomes;
- governance arrangements are settled and function;
- **qualifications are placed in a register or database;**
- the certificates and diplomas bear NQF levels.

NQF stages reached by ETF partner countries

DEVELOPMENT OF NATIONAL DATABASES

WHY LINKING QUALIFICATIONS DATABASES?

NEW OPPORTUNITIES FOR PARTNER COUNTRIES

- **Support collaboration by sharing information on qualifications in PCs**

Making information on PCs qualifications more accessible, search of collected qualifications data, involvement of responsible qualifications agencies, facilitating progress in qualifications development

- **Link with EU developments**

Interoperability at European/ global level, Europass database, comparison of qualifications

- **Intelligent analysis of qualifications data – improving quality of qualifications**

National and cross-country, matching information on skills, qualifications and occupations supported using ESCO and AI, analysis and monitoring

- **Reusing data, integration into applications, tools and services**

Connecting qualifications, learning and employment opportunities; facilitating learners and labour mobility, supporting career information services

- **Support recognition services**

ENIC/NARIC network, migration policy, digital certificates
