

AGENDA

JOINT WEBINAR: ENE AND VET TOOLBOX: GREEN OUT OF THE BOX!

GLOBAL GREENING - PRACTICES AND PROCESSES

6 JULY 2023, 12:00 – 14:45 CEST

GREEN OUT OF THE BOX !

This Webinar is a new pilot – organised jointly by

ENE – GRETA and VET Toolbox

ETFs global Network for Excellence – ENE - supports vocational excellence development together with more than 270 centres of vocational excellence (CoVEs) from more than 40 countries.

ENEs green VET partnership, **GRETA** - Greening Responses to Excellence through Thematic Actions - supports **greening of VET** as a response to the green and digital transitions.

VET Toolbox is an EU multi-partner programme of five leading European agencies for international cooperation (The British Council, Enabel, Expertise France, GIZ and LuxDev) aiming to improve the effectiveness of VET systems by turning investments into drivers for inclusive economic growth, social development, and decent job creation. It is funded by the **European Commission and the German Government**.

The toolkit “**Skills for the Green Transformation**”, developed in the framework of VET Toolbox, showcases project examples, process steps and initiatives in achieving skills relevant for the green transformation in various economic sectors.

This joint **webinar, organised on 6 July 2023, zooms in on greening the energy and construction sector in a changing world.**

The toolkit “**Skills for the Green Transformation**”, presented by **VET Toolbox**, will provide more insight on the green transformation and practice examples for the greening of curricula and training programmes.

Selected **CoVEs from Ukraine, Georgia and Armenia** taking part in GRETA, will share their greening activities and present examples from greening their curricula for relevant and quality skills delivery.

Experience from the **Jang Ban project in eco-construction with the company Elementerre in Senegal** will be shared.

The **VET Directorate at the Ukrainian Ministry of Education and Science**, also acting as the ENE coordinator will present on the role of CoVEs in the recovery of Ukraine.

Key takeaways from the webinar:

- ⇒ Understanding of what the green transformation is about
- ⇒ Awareness of skills needs in greening the energy and construction sector
- ⇒ Inspiration for further greening of curricula through shared tools and practices

⇒ Insights on skills needs for the recovery of Ukraine

For more information please GRETA lead expert, Susanne M. Nielsen at ETF smn@etf.europa.eu

AGENDA

Time	Activity	Speaker/s and support
