Ukraine is an active participant in the Torino Process - a biannual assessment of vocational education and training conducted jointly by the European Training Foundation (ETF) and its partner countries since 2010. The current round of the Torino Process centres on monitoring the performance of VET in providing opportunities for lifelong learning (Torino Process Level 1), and on reviewing policies and practices which may influence that performance (Torino Process Level 2).

The meeting will present and discuss the results of Torino Process monitoring of VET policy and system performance in Ukraine. The monitoring considers also the impact of the war on the VET system and discusses priorities for the future.

The meeting will have the following objectives:

1. Present the Torino Process monitoring results for Ukraine
2. Discuss these results with stakeholders and chart paths for future development and cooperation on that basis

The working languages of the meeting are English and Ukrainian, with interpretation.
