

AGENDA

BUILDING GREEN – BUILDING SKILLS ECOSYSTEMS

MOVING FORWARD IN PROVISION OF SKILLS FOR THE GREEN TRANSITION

ONLINE (ZOOM) – 15 FEBRUARY 2024, 12.00 -14.30 CET

GREENING TO EXCELLENCE

ETF's Network for Excellence – ENE - supports **vocational excellence** development together with more than 290 centres of vocational excellence from more than 40 countries.

ENE's global green VET partnership, **GRETA (Greening Responses to Excellence through Thematic Actions)**, supports **greening of VET** as response to the green and digital transitions.

GRETA's **whole institutional framework** sets the methodological frame **for greening of VET** around **five interlinked dimensions**: 1) Strategies for going green 2) Green curricula 3) Enabling teachers and trainers 4) Stakeholder collaboration 5) Funding and policy alignment.

GRETA's **thematic online sessions** present and share good practices. Meetings Report and presentation materials from all previous sessions are available at [GRETA's Open Space page](#).

The report '**Greening of Vocational Education and Training: Processes, Practices and Policies**' is available at [GRETA – Greening of vocational education and training: Processes, practices and policies | ETF \(europa.eu\)](#)

The online event, taking place on 15 February 2024, focuses on skills for a green future.

We zoom in **on the role of Centres of Vocational Excellence (CoVEs) in green skills ecosystems.**

We will unpack **the skills ecosystem and look into the dynamics of green partnerships to identify actors and enabling factors** for efficient skills provision.

We will learn from **practitioners how to move forward in providing skills for the green transition.**

Key takeaways from the event:

- Awareness of dynamics of skills eco systems relating to the green transition
- Knowledge on practices and examples from CoVEs
- Update on relevant developments in ENE and its green sub initiative, GRETA – Greening Responses to Excellence through Thematic Actions.
