

COOPERATING FOR BETTER EVIDENCE

The ETF outlook

23 MAY 2024

Summary of the discussion

Discussion
summary

Thematic challenges

Cooperation challenges

Capacity challenges

Usability challenges

- ETF activities
- International activities (*i.e.*, OECD)
- Your activities

Towards better evidence

ETF outlook: boosting peer cooperation

ETF outlook
regarding ...

...cooperation challenges

- **Gatherings on an annual basis to:**
 - Coordinate the **choice of indicators**, focus on **specific themes**, raise **collective capacity**.
 - Possibly establishment of an **informal KIESE working party** – provided there is an interest

Towards better evidence

ETF outlook: improving capacity

ETF outlook
regarding ...

...capacity challenges

- **Prioritise capacity building and peer learning by:**
 - **sharing of experiences** in the domain of monitoring in the form of **workshops** and **seminars**, online and face to face,
 - Opening a **channel for bilateral peer cooperation** and **capacity building**, on demand.

Towards better evidence

ETF outlook: user-friendliness

ETF outlook
regarding ...

...usability challenges

- Intensification of work on improving the **user friendliness** of all data we have:
 - **Accessibility of data** through proper organization and the choice of accessible, easy to maintain platforms
 - **Interpretation of data** in the form of messages of relevance for policy, and integration into **communication campaigns**

Towards better evidence

ETF outlook: thematic calibration

ETF outlook
regarding ...

...thematic challenges

- In the 2025 edition of our monitoring framework and beyond, we will seek to address the **thematic challenges** by:
 - **Curating the themes** covered through the evidence collection: limiting to those that reflect the **core commitments of countries** to their learners, and deepening the **focus on learners at risk**
 - Reinforcing the **flexibility of data interpretation** by continuing our reliance on **proxies**
 - **Adapting the choice of KIESE data on education and training** in the light of insights shared during this workshop and the 2024 evidence collection.

Thank you!
