

The Foundation for Social and Economic Initiatives (FISE)

Julia Koczanowicz-Chondzyńska

How it started

- FISE was created in 1990 by people who were affiliated with the democratic opposition in the times of communist Poland
- From the very beginning, it has been active in the labour market, helping Polish men and women find their way in the emerging situation of capitalism and democracy

At FISE, we strive for a reality in which every person has access to decent work.

To achieve this:

- > We run a social entrepreneurship incubator
- > We test and scale innovations
- > We activate and support local communities
- > We collaborate with businesses and academia

What we do

- Labour market
- Social entrepreneurship
- Social innovation

FISE➤
