Serra – Director Camerano Learning Hub Andrea Morello – Responsible for Training and Accreditation Cristina Fresia – CEO of Fresia Alluminio SpA | <p>Intro on public/private collaboration: Can you tell us more about the interaction of CLH with public authorities, PES (Public Employment Service), other labor market actors such as trade unions etc.?</p> <p>Tell us something about your experience with CLH. Please specify the size, sector of your company</p> <p>Training: target, objective, location, financing etc. Selection of participants.</p> <p>What do you think about the motto 'training as an investment rather than a cost'?</p> <p>We are discussing non-formal provision (not leading to formal qualifications). How do you ensure that CLH training provision is flexible enough and delivered with modern pedagogies?</p> <p>Questions and answers.</p> |

| | | |
|-------------|-------------------------------|--|
| 10:30-11:00 | Coffee break in the same room | |
| 11:15 | Bus to return | |

 **Key Context Note**

International organizations and countries increasingly view **adult learning** as a public sector responsibility or at least a matter of **public interest**. However, a substantial part of the costs, design, and delivery is often shared by **private actors** like companies, sector associations, training providers, and foundations.

 **Camerana Learning Hub: Forging Skills in Turin**

The **Camerana Learning Hub** is a strategic and historical training institution in **Turin**, Piedmont, dedicated to developing technical and managerial competencies for the future. Founded by the **Industrial Union** and the Chamber of Commerce of Turin, the Hub maintains strong, direct **collaboration between institutions and the productive world**. This vital connection ensures that its programs are always aligned with the evolving needs of the job market, particularly in industrial sectors like mechanics, automation, and digital technology. It provides a wide array of educational pathways, including **free courses for people over 18** (workers, job seekers, and professionals), focusing on practical, hands-on learning designed to foster talent, support internal business growth, and drive digital transformation in the region.
