# Further Education and Training

Further Education and Training or FET, offers a wide variety of life-long education options to anyone over age 16.

FET includes apprenticeships, traineeships, Post Leaving Certificate (PLC) courses, community and part time adult education as well as core literacy and numeracy services.

FET courses and programmes are provided through the Education and Training Board network throughout the country including online through SOLAS' eCollege.

FET courses are provided at levels one to six on the National Framework of Qualifications (NFQ). With RPL offered levels four to six.

In 2024, there were **230,000 unique learners** registered in FET programmes nationally with a total **budget allocation of €1.08 billion** (SOLAS; Annual Report and Financial Statement 2024)

# KCETB Context

Kilkenny and Carlow Education and Training Board was established on 1 July 2013 under the *Education and Training Boards Act 2013*. In March 2016, Training Services transferred to KCETB under the *Further Education and Training Act 2013*

(KCETB) provides a wide range of quality-assured, diverse Further Education and Training programmes through its FET Centres in Carlow and Kilkenny.

22 individual programmes are funded through SOLAS (including Apprenticeship), with other initiatives and services funded through Department of Education and Youth.

The FET Service offers full-time and part-time programmes accredited by QQI, City and Guilds, CIDESCO, ITEC and other awarding bodies.

The FET Strategy, (*Creating Futures: Further Education and Training Strategy 2026 – 2030*) underpins the direction of KCETB's Further Education and Training Service.

In addition, the KCETB and SOLAS Strategic Performance Agreement and annual targets highlight the areas of growth required to deliver the FET strategy priorities.

30 Further Education Locations with 16,470 beneficiaries attending a FET course/programme during 2025

# Tertiary Education System in Ireland

The creation of a unified tertiary system is one of the priorities of the Department of Further and Higher Education, Research, Innovation and Science.

The vision for **“Progressing a More Unified Tertiary System for Learning, Skills and Knowledge”** identifies the need for more diverse and accessible approaches to learning aimed at meeting the needs of learners.

This policy aims to ensure pathways between Further Education and Training and Higher Education are clear and coherent and that any barriers to progression are removed.

KCETB are in a strategic alliance with the SETU co-delivering four degrees that align to regional skills requirements.

# RPL in KCETB

Sarah Barron, Quality Assurance Manager & Tertiary Manager  
Amanda Butler, QA Co-ordinator (RPL Lead)

# The Development of RPL in KCETB

**RPL**  
Professional development delivered to KCETB staff in 2017 by Munster Technical University

**Pilot enabled KCETB to create robust Quality Assurance (QA) procedures for RPEL**

**Suite of resources created to promote RPL**

**KCETB was part of the Recognition of Prior Experiential Learning (RPEL) TOBAR pilot run with the Defence Forces in 2018**

**Further Employer Engagement supported expansion of RPL**

**CPD offered to KCETB to train as mentors and assessors**

# The Common Awards System

- The CAS system covers Level's 1-6 on the NFQ.
- All awards have the same structure: title, level, size assessment type and grading structure
- There are types of awards that can be certified as part of CAS: major, minor, special purpose and supplemental.
- Each award has listed learning outcomes (knowledge, skills and competencies)

## Benefits for RPL:

- **Learner mobility** - qualifications recognised and stackable across qualifications
- **Flexibility** - smaller awards (CAS Minor awards (micro qualifications) can build to major awards over time
- **Quality Assurance** - QQI validates all programmes

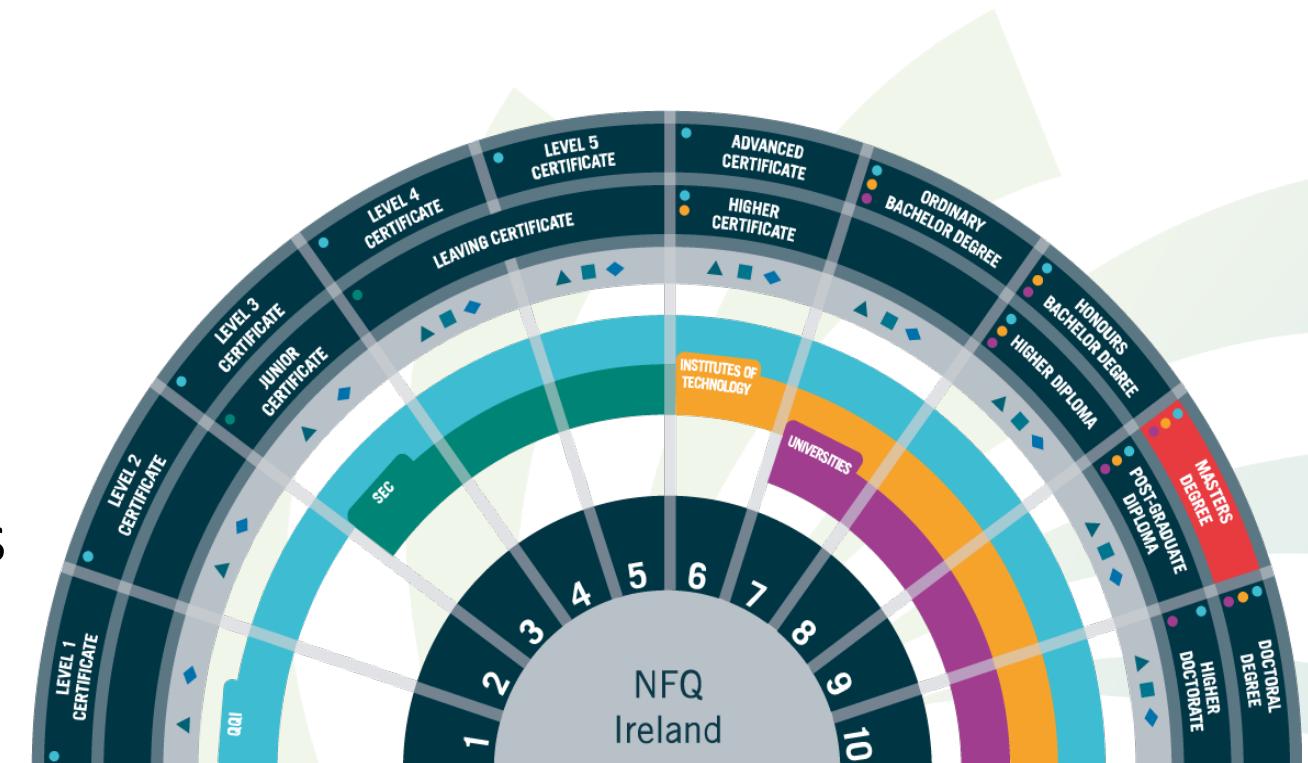

# National Framework of Qualifications (NFQ)

- The NFQ system demonstrated how all the qualifications in Ireland fit together
- There are 10 levels from basic (Level 1) to doctorate (Level 10)

## Benefits from an RPL perspective;

- This supports learners to visualise their progression journey and makes Irish qualifications clear and recognised internationally
- It supports life long learning and transitions between education and employment.

# KCETB – Quality Principles and Policy

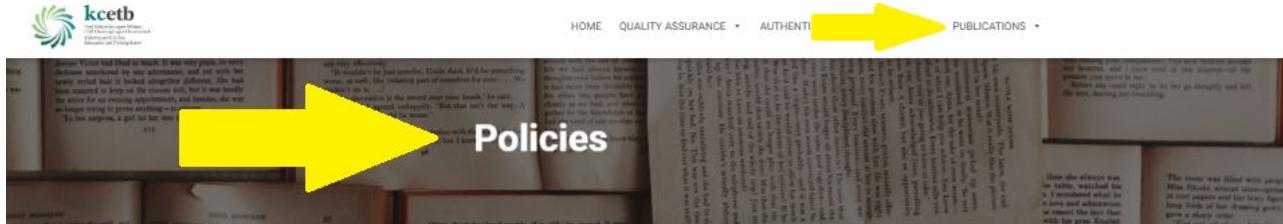

# RPL in KCETB

- **Quality** - all RPL applications are **part of the overall KCETB Quality Assurance process**.
- **Validity** - all RPL applications are judged to have achieved the relevant **standard** of knowledge, skill or competence required to achieve an award **in line with the NFQ**.
- **Reliability** - all RPL applications are assessed to ensure they are accurate, valid, and **consistent with national standards**.
- **Fairness** - all RPL applications are assessed in a **fair and consistent manner**.
- **Transparency** - all RPL applications are **processed** in a transparent manner. In turn all assessment is conducted **in line** with the standards of the **relevant level on the NFQ**.

- UDL in RPL Assessment

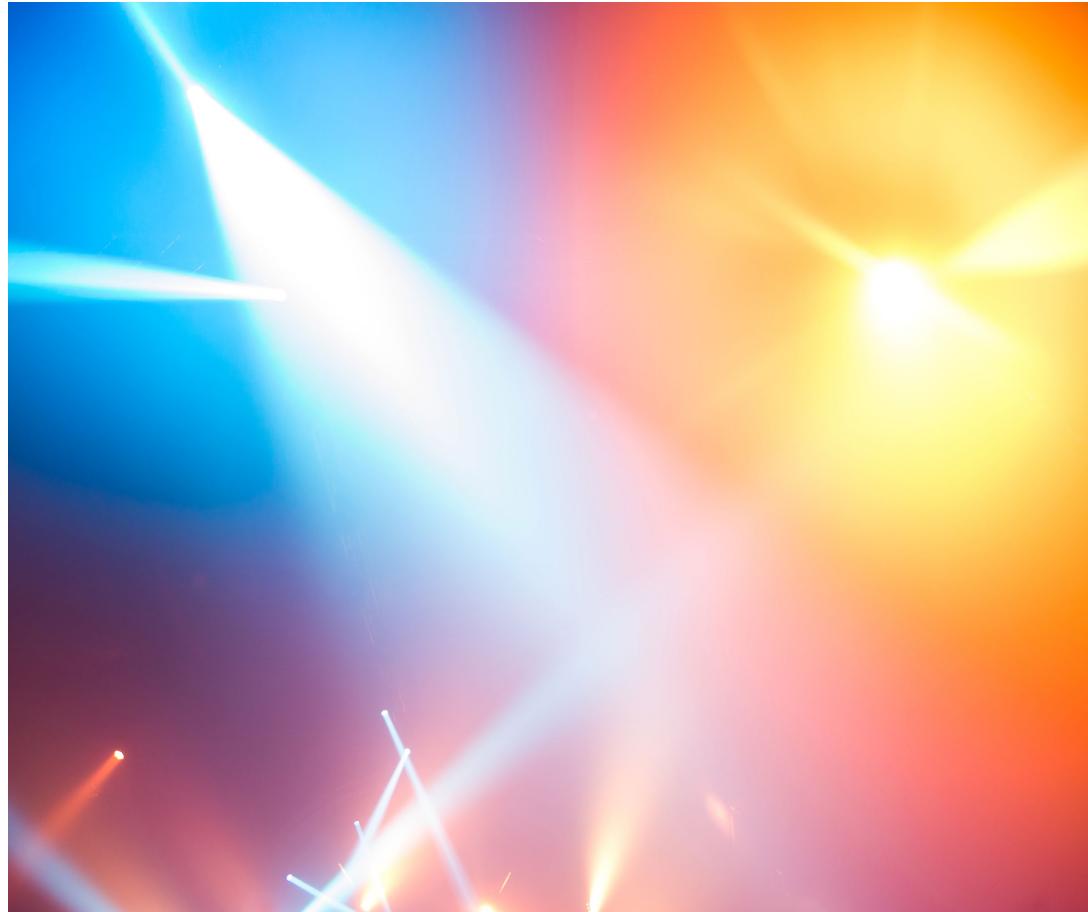

# Case Study 4: UDL in RPL Assessment

## Details

- This case shows how an experienced salesman with little recent formal education achieved a Level 6 Award through a UDL informed assessment and strong assessor support.
- Patrick was one of nine salespeople completing the QQI Level 6 Award in Consultative Selling. Unlike some of his peers, he had not engaged in formal education for about 40 years, though he excelled in his sales role.
- Traditional assessments involving research, reflection, and analysis were challenging for him, but with UDL adaptations he was able to present his evidence through a 90-minute audio recording. He ultimately earned the award with Distinction.

*"I found the course on Consultative selling a worthwhile, challenging and enjoyable experience. As an employee in the field, we tend to take for granted what we do everyday.*

*The course module got us thinking what we bring to our organisation in CAHG. It taught me that we offer our end users a complete package.*

*For example - we carry out mineral appraisals, dosing & vaccination programmes, calf health protocols, silage sampling and many more tasks to help with the farming enterprise. The learning outcomes emphasised the tasks we carry out on a daily basis.*

*It got the business managers talking ideas between ourselves which was great after being hindered by COVID for so long to all sit in a lecture together. There was times and stressful moments, where you would be pulling your hair out because the course wanted more constructed info, however that got us thinking and pushed us on even further.*

*I would like to thank the ETB for facilitating the course, for their time ,energy and dedication to us as participants and to our own company for making further education available to us in our organisation.*

*Thank you all."*
