Critical Advancements

RPL in Higher Education

The project has delivered critical advancements to strengthen institutional capacity, provided greater clarity for learners, and furthered the groundwork for a system where prior learning is recognised as a valued and viable pathway into and through higher education.

- 14 HEIs collaboratively developed the Pilot Framework for RPL in Higher Education.
- The implementation of data collection and reporting mechanisms for RPL.
- Supported an ecosystem of cross-institutional collaboration across 14 partner institutions.
- Creation of a Community of Practice essential to advancing RPL.
- The roll out of the National Forum for the Enhancement of Teaching and Learning (NFETL) RPL Digital Badge.

Key Project Achievements

**COLLABORATION
BETWEEN
PARTNERS**

**PILOT FRAMEWORK
FOR RPL IN HIGHER
EDUCATION**

**RPL STAFF
DEVELOPMENT

**DATA COLLECTION/
REPORTING SYSTEMS
INTEGRATION**

**LEARNER
INFORMATION AND
AWARENESS RAISING**

Collaboration between Partners

Sector-Wide Collaboration Across 14 HEIs

Policy Development & Implementation

Framework for RPL in Higher Education

A shared sector-wide understanding of RPL to drive coherence and consistency in policy and practice across 14 HEI Partners.

The framework provides definitions of key terms related to RPL, outlines principles as well as the 5-stage RPL process.

Pilot Framework for RPL in Higher Education

The Framework shows that RPL is underpinned by two core values:

- 1. Learner-centredness:** The learner is central to the RPL process. A wide range of learners may wish to apply for RPL: RPL is for everyone.
- 2. Quality assurance:** The RPL process is embedded in the quality assurance procedures of each higher education institution and is aligned with the National Framework of Qualifications.

Definition of RPL

Recognition of Prior Learning (RPL) is a process by which prior learning is formally valued. It is a means by which prior learning is identified, assessed, and recognised by an educational institution as part of its programmes, courses, and/or modules on Ireland's National Framework of Qualifications. This makes it possible for an individual to build on learning achieved and to be rewarded for it.

Development of Aligned Institutional Policies

14 HEIs developed the Pilot Framework for RPL in Higher Education, agreed by senior leaders, this provides a foundation for consistent, coherent practice across institutions.

12 Partner HEIs published revised policies to guide institutional implementation of RPL

First National Technical (Data) Definition of RPL

Data Collection and Reporting Systems Integration

Standardised data capture initiated across HEIs allows us to 'count' RPL learners, ensuring that every learner's journey is acknowledged and valued.

Standardising and Tracking RPL

- Developed and agreed Technical (Data) Definition of RPL (2022)
 - To enable consistent RPL reporting for:
 - Entry, Credit/Exemption
 - Advanced Entry
 - Full Award
 - Supports integration with HEI data systems: Banner, ITS, SITS
-

Pilot Projects

- One HEI led a pilot to test system upgrades and data mapping in Banner, now implemented university-wide.
- Two HEI's began pilots for ITS and SITS

Further learning is now a reality for many – including farmers – as skills and experience are acknowledged.

Further learning is now a reality for many – including farmers – as skills and experience are acknowledged.

Feelgood	15
----------	----

DO you have an apocalyptic vision of the future? Or are you just a pessimist? A new study says you're skipping the new world, now or never. The researchers found that 40% of adults who made new-year's resolutions to change their lives in 2013 were pessimists, and you yourself are likely to be one, too. The study, published in the *Journal of Personality and Social Psychology*, is a landmark because the year's resolutions can be seen as a harbinger of the year's outlook.

Resolutions can be pessimistic or upbeat, says the study's author, psychologist John P. Forgas, who is also an author of the new book, *Why We Change Our Lives*, in which he details the science of change. Forgas, who is at the University of Western Australia, says that pessimistic change is more common than positive change, but that pessimists are also more likely to fail at their resolutions. The concept of pessimism is not new, but Forgas's work is groundbreaking because he's the first to show how it affects change. "You can't change your life if you're pessimistic," he says. "You need to be optimistic."

Forgas says that pessimism is a natural part of life, but it's not always helpful. He says that pessimists are more likely to be pessimistic about the future, and that pessimism is a natural part of life. He says that pessimism is a natural part of life, but it's not always helpful. He says that pessimists are more likely to be pessimistic about the future, and that pessimism is a natural part of life.

Instead of a long list of resolutions, choose a concept — like 'courage' or 'focus' — to guide you through 2025 and influence your daily decisions, says **Gillian O'Gorman**

• No one needs to be stuck in a career rut anymore. You can change your life and change your career through education

[illegible]

CHRIS DUNNE meets Dr Ciara Staunton, who was recently appointed as the new National Project Director for Ireland's Recognition of Prior Learning, and finds out about her vision for the project.

Dr Ciara Stanton recently took up the post as National Project Director of RPI which allows learners to gain across the

by time distinguished academic, administrator, and advocate for inclusive education. She was a high-achieving student who graduated, she threw her hat in the ring.

"Yes, I did! I must have!" she says. "I was the first woman to be elected to the National Association of Public Administrators."

"I was always in a celebratory mood," she says. "I graduated from college to achieve."

"Of course it is," says Clara, who lives in Carmel, Indiana.

"I was the first to take that piece of paper away from you."

"I always believed the paper was the proof of your achievement."

"I had the whole book, the make-believe of the whole thing."

"I was teaching all the other teachers."

"Today, Clara is in one of those celebratory moods."

The 41-year-old is bringing over 30 years of experience to the position of new law rules as Project Director at the National Recognition of Prior Learning (NRL).

NRL, related to a National Project on the Recognition of Prior Learning Initiative, working in partnership with 14 higher education institutions and the U.S. Department of Education, aims to gain entry to higher education for students with prior learning exemptions based on their prior learning, whether it's formal, non-formal, or informal.

"My dad, Dr. Denis Stansbury, retired from the U.S. Coast Guard as a Captain and is now the Executive Centre for Adult Continuing Education and Director of Access at UCC."

"I was a young woman who benefited of education from a young age. I was really intent on it," says Clara.

How young?

"I started to begin from the cradle to the grave," says Clara, who in addition to her work with NRL, is a researcher and research, including managing the Forensic Psychology Research

[illegible]

"I've taken part in triathlons, marathons, Iron Tri events," says Clara. "Two in Los Angeles and one in Malaga. I also completed the Great Rialto 20km, and I've run the Cork marathon. I ran 5km and was so tired after it, I fell asleep on the way home." Clara's motto is "The great way to catch up!"

"I am an avid fan of exercise," she says. "I love running. She is in peak condition most of her life. She gets it."

"You're right," she says. "the prime of my life! Look at very fulfilled."

"She has to be very mindful," Clara says.

"The little mundane things make up the bigger picture," she says. "It's important to be kind, and I like to have positive thoughts about people. Big things come and go. It's the little things on the job that count. Having commitment and passion, everyone can achieve their dreams."

Clara, at the top of her glowing family life, doesn't mind taking time to relax.

[illegible][illegible]

Says, "It's refreshing, reintroducing and providing you with an opportunity to learn. I've been through many ways you may think you're not capable, but it's so rewarding when you come through the other side."

Bullman says her third-level course enhanced her abilities and opened up a career possibility. "It also gave me a deeper understanding of the business, particularly the consultants and advisors in the work place. I'd definitely recommend it."

Edwards, when you go through this course, you're going to be able to make big changes to your life and career. "It's a great opportunity."

As we come to a new year, quicken behavior now is an ideal time to consider changing, in a three-course, especially for those who feel they're not a "doer" course.

"An ongoing with leadership can be a great idea," she says. "It's a great way to develop new skills. You'll meet new people, learn your network and gain a new perspective."

I want to encourage others to believe that this is the path for them and that they not only deserve it but have worked towards it, their entire life.

–Evelyn Mc Glynn, BA (Hons) in Business, Social Enterprise, Leadership & Management, Technological University of the Shannon.

Probably one of the best decisions I've made in my life and definitely one of the best years of my life.

–Mike Hanrahan, Atlantic Fellow, GBHI, Trinity College Dublin.

In a nutshell, its a life-changer.

–Paddy Rast, MBS in Innovation and Leadership, Atlantic Technological University

Sharing testimonials to simplify the process and provide real-world examples of how RPL can be applied across a broad range of industries and career paths.

[WATCH: RPL Learner Testimonials](#)

Staff Development

Badge Criteria

- Explain the concept of RPL and reflect on its application within your own setting.
- Reflect on the potential impact of RPL for an institution, its staff and students.
- Identify existing policies and consider their alignment with practice.
- Analyse the relationship between programme and module learning outcomes and the RPL candidate.

600

Higher Ed Staff
reached through
the RPL Digital
Badge

This was a really great programme. The content was excellent and it really enhanced my understanding of RPL both in the Further Education and Higher Education sectors. I would highly recommend it to others.

One of the best badges I have ever completed...the material and conversations were still very relevant to me. The guest contributors were excellent, a pleasure to listen to.

-Digital Badge Participants

Key Achievements

813 staff registered for the RPL Digital Badge, with **400** badges awarded

51 facilitator badges issued, empowering participants to deliver the badge and support RPL development within their own institutions

70% of badge earners are based in Higher Education Institutions (HEIs); of these, more than half hold academic roles

96% satisfaction rate reported among surveyed participants
Strong cross-sector engagement, with high levels of participation from academic and professional services staff.

Key Resources Delivered

www.priorlearning.ie/resources-tools

RPL Toolkit

[Access the RPL Toolkit](#)

- Resource for the Practice of RPL for Academic, Professional, Quality Assurance and Administrative Personnel
- Structured around the 5-stage RPL process: Information, Identification, Documentation, Assessment, Certification.
- Informed by the Pilot Framework, Technical (Data) Definition, and institutional practices.

RPL Exemplars and Templates

- Practical, real-world examples of RPL practice, providing guidance for staff, including assessment templates, and exemplars provided by partner HEI's
- Shared by partner HEI's to guide implementation

UCD Online RPL Application Form for Credit/Exemption Template

Sample of form completed by learner

The learner completed the UCD online RPL application form for credit/exemption and requested RPL Credit for two modules: Computer Forensics COMP40200 & Advanced Computer Forensics COMP41500

Online Form Questions	Learner Response
Employment details	The learner included details of roles held and training completed since joining a law enforcement agency in 2010. These details are not included here in order to maintain anonymity of the learner.
What is your main reason for considering third level education now and how best would RPL contribute to this	I am in this program to expand my knowledge and skill in digital forensics. The Recognition of Prior Learning will help me concentrate on disciplines I am not as familiar with.
Describe details of life/work experience, including experience and skills gained through volunteerism/care work. This would include key learning and skills achievements	I have been working in digital forensics since 2010. I have had multiple trainings provided by my agency. I have also taken and received multiple certifications from SANS. SANS is a worldwide cyber security and forensics training platform. They are recognized around the world as a leader in the digital forensics field
Education details: describe second level and any subsequent education and training courses undertaken, including work-related training	"I have the following SANS Certifications: GIAC Python Coder (GPC) GIAC Response and Incident Detection (GRID) GIAC Certified Incident Handler (GCIH) GIAC Security Essentials (GSEC) GIAC Certified Forensic Examiner (GCFE) I have taken Mac and iOS Forensic Analysis (MFI) and Incident Response. There was not a question about this training in my previous employer."

IADT Master of Business in Equality, Diversity and Inclusion Award Standard Template

Mapping to Awards Standards (Level 6)

Please complete the table below to demonstrate your knowledge, skills, and competence to date.

Standards	Evidence of Learning
Knowledge Breadth - Evidence of learning Please write a short paragraph. This paragraph shows your knowledge of management, accounting, HR, marketing, economics, or any other related area of work. Indicate your business/work experience. Link this to your work and education.	
Knowledge Kind - Evidence of learning Please write a short paragraph. This paragraph shows your specialist knowledge of specific aspects of the business/work environment. How has your area of expertise/work changed over time?	
Know-how & Skill Range - Evidence of learning Please write a short paragraph. This paragraph shows your ability to communicate to both peers and supervisors, in the particular area of business/work that you have experience of. What skills have you had to develop to become competent?	
Know-how and Skill Selectivity - Evidence of learning Please write a short paragraph. This paragraph shows your ability to exercise judgement. What kind of planning experience do you have? How do you adapt to a changing environment?	
Competence - Context - Evidence of learning Please write a short paragraph. This paragraph shows your ability to supervise specific work tasks. In what contexts do you supervise others? On what occasions have you had to analyse, interpret, and use data to find solutions to specific business/work problems?	
Competence Role - Evidence of learning Please write a short paragraph. This paragraph shows how you relate to take direction and accept criticism. Give examples. Do you have experience in working in a team, give examples of your contribution to the team tasks.	
Competence Learning to learn - Evidence of learning Please write a short paragraph indicating your prior learning. This paragraph shows how you learn in a work situation and your approach to learning.

Recognition of Prior Learning

Findings of the External Evaluation of the RPL in Higher Education Project

“The initial lifespan of the project has enabled the sector to reach agreement on the necessary preconditions; for example, the technical (data) definition and pilot framework, for establishing a coherent, national approach to RPL across Irish higher education.”

Overarching Recommendations

- 1 Establish a subsequent phase of work in which objectives and key performance indicators (KPIs) target on-the-ground implementation of the National Framework for RPL in HE.
- 2 Clearly differentiate between objectives and KPIs to be achieved at national level and those to be achieved at institutional level.

Recommendations for National Activity

3. Embed statutory reporting on RPL within HEA's Student Record System to facilitate ongoing reporting on RPL data by HEIs to the HEA.
4. Consider whether HEI reporting on RPL data (see recommendation 3) and/or other direct indicators (see recommendation 9) should be linked to any additional funding to progress RPL practice within HEIs.
5. Coordinate with employer representative organisations to develop a strategy to raise awareness of RPL and ensure the opportunities it presents are understood by enterprise.
6. Require that RPL be considered, embedded by design and made explicit within information pertaining to new programmes or micro-credentials.
7. Ensure that the existing communications material (e.g. priorlearning.ie and RPL stories) and practical resources developed by the project (e.g. pilot framework, case studies) are maintained, hosted and actively promoted for use by the sector, e.g. via the National Forum for the Enhancement of Teaching and Learning in Higher Education (NFETLHE). Within this:
 - a. Facilitate ongoing contributions to a repository of case studies or exemplars of good practice by institutions to maintain the currency of these resources.
 - b. Enable academic and professional staff in Irish higher education to continue to achieve recognition for their engagement in professional learning via access to the existing RPL Digital Badge.
8. Progress redevelopment of the existing RPL Digital Badge and RPL Toolkit to provide a suite of practical, self-access training resources available for use on demand by institutions and relevant stakeholders.

Recommendations for Institutional Activity

9. At institutional level, propose and agree appropriate indicators of achievement, particularly in the context of any additional funding to progress RPL practice within the HEI. Reasonable example of direct indicators may include:

- a. Visibility of RPL in programme information for prospective learners.
- b. Visibility of RPL in strategic and operational plans and KPIs.
- c. The proportion of academic, external engagement and relevant area (e.g. admissions, registry) staff engaging in RPL training or development activity.
- d. Numbers of RPL processes actioned (which may be expected to vary substantially by institutional profile).

10. In HEIs where the RPL coordinator role exists, clarify the role of RPL in relation to roles and responsibilities for RPL throughout the organisation. Within this:

- a. Embed responsibility for RPL appropriately in the role descriptions as relevant for academic and professional staff.

11. Embed RPL in the industry communications, external engagement and enterprise strategies of institutions, particularly in relation to cohort RPL.

12. Raise the profile of RPL in communications and promotions material targeting prospective learners.

What next for embedding RPL?

Key Priority 1: Increasing Capacity across the HEIs (Staff Training & Professional Development)

Enhancing staff knowledge, skills, and confidence to embed consistent RPL practices within and across institutions.

Key Priority 2. Awareness Raising and Learner Engagement

Embedding RPL through National and Institutional Communications & Engagement.

Key Priority 3. Continued RPL Integration

Continued engagement with a range of stakeholders to ensure that RPL is positioned within national and local strategies.

Key Priority 4. Institutional and Stakeholder Engagement

Networking, engaging, consulting and collaborating to inform the development and actioning of key priorities.

Key Priority 5. Targeted Initiatives

Designing and delivering focused RPL initiatives.
