SUMMARY:

The European Alliance for Apprenticeships (EAfA) was launched in 2013. Together with its members, the Alliance is committed to strengthening the supply, quality and attractiveness of apprenticeships, promoting apprentice mobility, and supporting the development of green and digital skills. Since its creation, EAfA members have helped generate more than 5 million apprenticeship opportunities and submitted over 500 pledges from VET providers, social partners, businesses, local authorities and other stakeholders. In 2020, EAfA was renewed to further boost apprenticeships across the EU and contribute to a strong and sustainable supply of high-quality apprenticeship opportunities for young people. The renewed Alliance is built around six key priorities:

Committing to quality and effective apprenticeships, and encouraging Member States and companies to do so, by fostering national apprenticeships coalitions.

Incentivising support to SMEs for providing a stable supply of quality and effective apprenticeships.

Mobilising local and regional authorities as catalysts for apprenticeships within the local business environment.

Engaging European sectoral social dialogue committees in apprenticeships proactively, with a view to agree on joint sectoral pledges.

Strengthening social dialogue through a more active involvement of national social partner organisations.

Supporting the representation of apprentices in Member States by relaunching the European Apprentices Network.

This webinar brings together representatives from the private sector, but also VET centres, social partners and chambers. Its objective is to familiarise participants with EAfA and the activities of its platform, while showcasing the benefits of becoming a member. The webinar will also provide an opportunity to exchange good practices and insights on apprenticeships through contributions from two companies (or one company and a VET centre) that are members of the Alliance.

More broadly, the event will offer a platform for participants to share experiences and achievements in the design, development and delivery of apprenticeship programmes, and to learn from the experiences of other members of the EAfA community.

Time (Kyiv)	Agenda Item
10:00 - 10:10	Welcome and introduction Objectives of the meeting and expected outcomes <i>Iwona Ganko, European Training Foundation</i> <i>Iryna Shumik, Ministry of Education and Science, Ukraine</i>
