About the Start Cup Competition

The "**Start Cup Competition – Entrepreneurship in the Mediterranean**" is a contest of entrepreneurial ideas developed by university students enrolled in one of the universities around the Mediterranean. This competition aims to encourage participating teams from universities on both shores of the Mediterranean to present innovative ideas in the field of entrepreneurship.

The initiative was **launched in 2018** in the framework of the **ERASMUS+ Capacity Building project RESUME** and is part of a series of initiatives organised by the **UNIMED SubNetwork on Employability**, whose objective is to promote cooperation between members on the theme of **entrepreneurship and employability** and to strengthen economic and social cohesion by promoting, on the one hand, cross-border, transnational and interregional cooperation, and on the other hand, sustainable local development.

The Start Cup Competition is part of the permanent UNIMED Initiatives for **Student Engagement.**
