

ISRAEL, Torino Process 2018-2020 and Skills for the future study

EVENT NAME	Torino Process 2018-2020: National report, and Skills for the future: The Agritech sector Key findings and recommendations for action
LOCATION	On-line event organised by AMAL network.
DATE	June 30 th 2020

CONCEPT NOTE

Rationale

The Torino Process is an evidence-informed analysis of Human Capital Development issues and Vocational Education and Training policies responses in the ETF Partner countries. The process, launched by the ETF for the first time in 2010, is in its fifth round of implementation that will be completed in 2020.

ETF launched a new project in 2019 with the aim to support its Partner countries to improve the quality and relevance of life-long learning to better respond to labour market needs. The project aims at developing a methodology for analysing the dynamics of changing skills demand along with emerging skills needs. As a first pilot case ETF has been working on the Israeli agritech sector.

There is a clear link between the two studies as in a sense the Skills for the future methodology addresses one of the main issues emerged in the TRP analysis, i.e. how the Israeli TVET system can better address the skills needs expressed by the very dynamic national labour market.

Objectives of the workshop

Following the production of the Torino Process national report and the Skills for the future methodology development and testing, this workshop will have the primary objective to present and disseminate key findings and recommendations.

Specific objectives of the workshop are the following

- Share with participants the key findings and recommendations of the Torino Process National Report and of the Skills for the Future Study
- Identify and agree specific actions to address the recommendations both in terms of short quick-wins and longterm actions)

The expected outcome is the dissemination of the findings and recommendations and the identification of agreed set of strategic and concrete action-oriented recommendations for Israeli authorities and institutions. Such recommendations can as well inform the policy dialogue between Israel and the European Union and the definition of future cooperation programmes.

AGENDA (Israel Time)

10:50 - 11:00	Connection of participants
11:00 – 11:40	<p>Session 1: Welcome and Introduction</p> <p>Chair Anastasia Fetsi, Head of ETF Operations deptment</p> <p>Welcome of participants Dr. Ronit Ashkenazy, Deputy Director general of AMAL Dr Florence Azran, Chair of the TVET National Committee H.E.
