

Curriculum Vitae

Mrs. Monika Rybová, The Ministry of Education, Science, Research and Sport of the Slovak Republic

I had been working as a teacher on Secondary Vocational School in Senec, Slovakia since 1994 – 2014, a part of my job since 2006 was a Coordinator of international projects with my duties to create and complete new applications in previous EU school projects Socrates, Comenius, Leonardo Da Vinci, take care about running projects, check the fulfilling the tasks, the progress of the projects, arrange the mobility, meetings, communicate to foreign partners, complete the pre-liminary and final reports for National agency in Slovakia. After years of service to pupils and school I wanted to do anything more for vocational education and training in Slovakia, so I applied for job at state service and since 2014 I have been working as a State advisor for Secondary Vocational Schools and School facilities at The Ministry of Education, Science, Research and Sport of the Slovak Republic, Bratislava, Slovakia. I am responsible for creating the state policy in the field of secondary vocational schools at the level of Ministry of Education of Slovakia and following and analysing the system of vocational education and training in the countries of EU concerning the implementation of EU law, but I am also responsible for education in secondary vocational schools in the fields related to agriculture, forestry, food and veterinary. I was honoured to work 2014 – 2015 on tasks connected to creating the first Law on VET in Slovakia in modern history, its refreshment in 2018 and working on changes 2020-2021. In years 2016 – 2018. I was a member of ET 2020 technical group on Promoting citizenship. My native language is Slovak, but I am fluent in English and Russian. People who know me appreciate my skills being a good listener, a patient member of the meetings and during negotiations diplomatic and creative one.
