# AMENDING BUDGET 1/2017

The main objective of this amending budget is to integrate in the ETF budget the assigned revenues, which were undefined at the time of the adoption of the budget (November 2016 for the 2017 budget) and to reflect the adjustments for 2017.

The attached budget refers to the 2017 budget adopted by the Board at its meeting of 25 November 2016.

## Revenue

The ETF's main source of revenue is its subvention from the European Commission. In addition, in accordance with Article 15.3 of its founding Regulation, the ETF can receive funding from other sources for activities included in its mandate.

### **1a. ETF's subvention (Titles 1, 2, 3)**

There are no modifications to the subvention the ETF has received from the European Commission.

### **1b. Assigned revenue – GEMM (Title 4)**

The Governance for Employability in the Mediterranean (GEMM) project had a budget of €3 130 000 (out of which the ETF's contribution is €1 130 000). It started in 2013 and all activities have been finalised in 2016. The final payments were executed early 2017.

The amending budget integrates the amount of € 69 237.63 left from the previous financing. The ETF expects no further funding for the GEMM project.

## Expenditure

The activities performed until now are in line with the work programme adopted by the Board on 25 November 2016.

### 2a. ETF's subvention (Titles 1, 2, 3)

The salary adaptation communicated in November 2016 was +3.3% as opposed to the planning assumption of +1%. The appropriations available for salary related costs therefore need to be increased before the end of the year. A close monitoring of evolving costs takes place. The current estimation is that the gap to be covered by December 2017 to cover salary related costs amounts to € 250 000. However, there are still several important unknown elements which will impact the final amount needed such as the rate of occupation of posts, potential savings from unforeseen leaves and most importantly the salary adaptation and weighting factor which will be announced in November 2017 with a retroactive impact on the last 6 months of 2017.

The ETF has organised a budget review, which has identified appropriations of €51 700 which can already be reallocated to close the gap. They derive from current savings both from Title 1 (canteen) and Title 2 (the April Governing Board meeting was funded through budget 2016).

At the same time, the ETF has identified a series of activities included in the work programme for 2017 which could be frozen until the salary costs become certain. These "negative priorities" come from both operational and administrative areas, and could still be activated should the need for salary related costs not be confirmed.

The ETF also proposes a minor reallocation within Title 2 (Facilities) in order to allocate appropriations for consultancy on the revision of the insurance coverage. The €9 000 needed are available from small savings and re-evaluation of actual costs.

The amending budget includes the proposal to reallocate the €51 700 from Title 1 and Title 2 in support of salary related costs, and €9 000 within Title 2.

More detailed information on the activities can be found in the "Revised Assumptions" column in the Amending budget.

The total redistribution of expenditure covered by this amending budget, including the first transfer, represents €60 700 commitment and payment appropriations, corresponding to 0.3% of total subvention.

### 2b. Assigned revenue – GEMM (Title 4)

The amount of €69 237.63 included in this amending budget represents remaining funds. All payments for the GEMM project have been finalized. The remaining amount will be returned to the European Commission.

## Presentation

The attached amending budget contains the details of the initial budget and the above mentioned modifications.

Currently, in 2017 the ETF is expected to manage a subvention of €20 144 000 and an assigned revenue of € 69 237.63.
