# BUDGET RECTIFICATIF 2/2017

L'objectif principal du présent budget rectificatif est de refléter les ajustements pour 2017 et d'intégrer dans le budget de l'ETF les intérêts accumulés.

Le budget ci-joint se réfère au budget rectificatif 2017 adopté par le conseil de direction lors de sa réunion du 9 juin 2017.

## Recettes

La principale source de recettes de l'ETF est sa subvention octroyée par la Commission européenne. De plus, conformément à l'article 15, paragraphe 3, de son règlement fondateur, l'ETF peut recevoir des financements d'autres sources pour des activités relevant de son mandat.

### 1.a. Subvention de l'ETF (titres 1, 2, 3)

La subvention que l'ETF a reçue de la Commission européenne ne fait l'objet d'aucune modification.

### 1.b. Recettes affectées – GEMM (titre 4)

Le projet intitulé «Gouvernance pour l'employabilité en Méditerranée» (GEMM) était doté d'un budget de 3 130 000 EUR (l'ETF y contribuant à concurrence de 1 130 000 EUR). Le projet a été mis en œuvre en 2013 et toutes les activités ont été finalisées en 2016. Les paiements finaux ont été exécutés au début de 2017.

Le montant non utilisé a été restitué à la Commission européenne.

### 1.c. Recettes diverses (Titre 9)

Depuis 2014, l'ETF peut incorporer les intérêts générés par la subvention octroyée par la Commission (article 58 du règlement financier de l'ETF). Le montant cumulé des intérêts pour les trois premiers trimestres de 2017 s'élève à 89,47 EUR et est incorporé au titre de recettes diverses.

## Dépenses

Les activités réalisées jusqu'ici sont conformes au programme de travail adopté par le conseil de direction le 25 novembre 2016.

### 2.a. Subvention de l'ETF (titres 1, 2, 3)

Le budget rectificatif propose de réaffecter comme suit 38 640 EUR: du titre 1 au titre 2, un montant de 6 740 EUR, et du titre 1 au titre 3, un montant de 31 900 EUR. Des informations plus détaillées sur les activités figurent dans la colonne «Hypothèses révisées» du budget rectificatif.

La redistribution totale des dépenses couvertes par le présent budget rectificatif représente 459 103 EUR de crédits d'engagement et de paiement, soit 2,3 % de la subvention totale.

### 2.b. Recettes affectées – GEMM (titre 4)

Le montant de 69 237,63 EUR inclus dans le précédent budget rectificatif représente des fonds résiduels. Tous les paiements afférents au projet GEMM ont été finalisés. Le solde restant a été restitué à la Commission européenne.

As from 2016, this budget line covers all salaries, allowances, social security and contributions, weighting factor, salary adaptation, annual leave not taken at the end of the contract, cost of starting and end of service for Temporary Agents (previously on budget lines 1101, 1102, 1130, 1131, 1132, 1140, 1141, 1181, 1182, 1183, 1184), as well as the possible modifications due to the weighting factor (1190) and salary adaptation (1191). Until 2016 this budget line was named "Basic Salary"</p> <p>Planning assumptions: The ETF establishment plan of 88 posts will be achieved from the beginning of 2017. No change in weighting factor is expected (99.4). The salary adaptation for 2017 is estimated at +1%. It is assumed that 1 FTE will not be paid linked to part-time arrangements</p> <p>Revised assumptions (1): The salary adaptation communicated in November 2016 was +3.3% as opposed to the planning estimated of +1%. The appropriations available for salary related costs therefore need to be increased before the end of the year. A close monitoring of evolving costs takes place. The current estimation is that the gap to be covered by December 2017 to cover salary related costs amounts to € 250 000. However, there are still several important unknown elements which will impact the final amount needed such as the rate of occupation of posts, potential savings from unforeseen leaves and most importantly the salary adaptation and weighting factor which will be announced in November 2017 with a retroactive impact on the last 6 months of 2017.</p> <p>The ETF has organised a budget review, which has identified appropriations of €51 700 which can already be reallocated to close the gap. They derive from current savings both from Title 1 (canteen) and Title 2 (Governing Board).</p> <p>The rest has been identified through negative priorities, and it could be transferred as soon as the need will be confirmed.</p> <p>Revised assumptions (2): Minor reinforcement of salary lines, based on current estimation of the weighting factor/salary adaptation and following ETF's conservative approach. Both salary adaptation and weighting factor will be known mid-November, and this could lead to further needs or availability.</p>
