

Work-Based/Dual Education in Georgia

Ministry of Education, Science, Culture and Sport of Georgia
2018

Stages of implementation and development of the work-based/dual education in the VET system of Georgia

There is a concept developed to eradicate the existing problems in the system.

The problems are:

- Quality of VET education;
- Lack of private sector involvement;
- Attractiveness of VET education

Stages of introduction of the work-based/dual education

2015 – situational analysis- qualitative/quantitative research.
Analysis of international experience.
