THE UK'S LOST GENERATION

by Mischa Wilmers

Finn Richardson is a near perfect embodiment of the UK's growing youth unemployment crisis.

Tinerii romani fara loc de munca, o "generatie pierduta"?

Se discută din ce în ce mai des despre o "generație pierdută". După generația de sacrificiu, a celor care a trebuit să traverseze cum s-au priceput tranziția de la valorile comuniste la cele ale economiei de piață, "generația pierdută" este cea a tinerilor care nu își găsesc loc de muncă din cauza crizei și a incertitudinilor economice din ultimii 5 ani. O analiza semnată de Mihaela Matei, Marketing Supervising Associate EY România, coordonator al studiului EY Antreprenorii Vorbesc.

La 'generación perdida' en España: 1,4 millones de jóvenes desempleados y sin expectativas

Η χαμένη γενιά

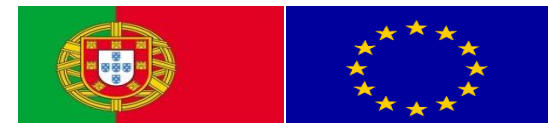

Ενός γενιάς εργαζομένων, εκπαιδευμένων και καλλιεργημένων σύμφωνα με τα κριτήρια της ΕΕ, αλλά που δεν μπορεί να βρει δουλειά στην Ελλάδα. Το γεγονός αυτό θεωρείται ως η μεγαλύτερη κοινωνική πρόκληση. Αυτή είναι η γενιά που ονομάζεται "20-24χρονη". Αυτή η γενιά είναι, κατά τον μεγαλύτερο αριθμό των ερευνητών, η εκπαιδευμένη γενιά. - ΕΚΕ #1

The total budget (for all qualifying EU Member states) of the YEI is 6.4 billion Euros for the 2014-2020 period. As unemployment is still very high, on 14 September 2016 the Commission suggested an increase of the budget from €6.4 to €8.4 billion. In that way, the global YEI resources will increase by 2 billion Euros for the 2017-2020 period.
